Managing APC requests made easy!

Welcome to **Elsevier Open Access Platform**. Here's how it works:

- 1**
When there are new requests you'll receive a notification in your mailbox.
- 2**
On the platform you'll be provided with all relevant data (such as DOI-link, author credentials, journal and more) to effectively validate requests.
- 3**
You can then approve or reject the request. You can also notify the author on decisions made.
